ABOUT CONTACT On Social Networks   

- Updated Events Page (Added Connection – Consultation and Assessment)

The screenshot shows a web browser window with the 'STAY FIT' website. The page has a blue header with the site logo and navigation links: HOME, ACTIVITY, MEMBER CONNECTION, MY EVENTS, and SIGN-OUT. A welcome message 'Welcome Chaitanya' is visible. Below the header, a section titled 'CHAITANYA'S EVENTS' contains a table with the following data:

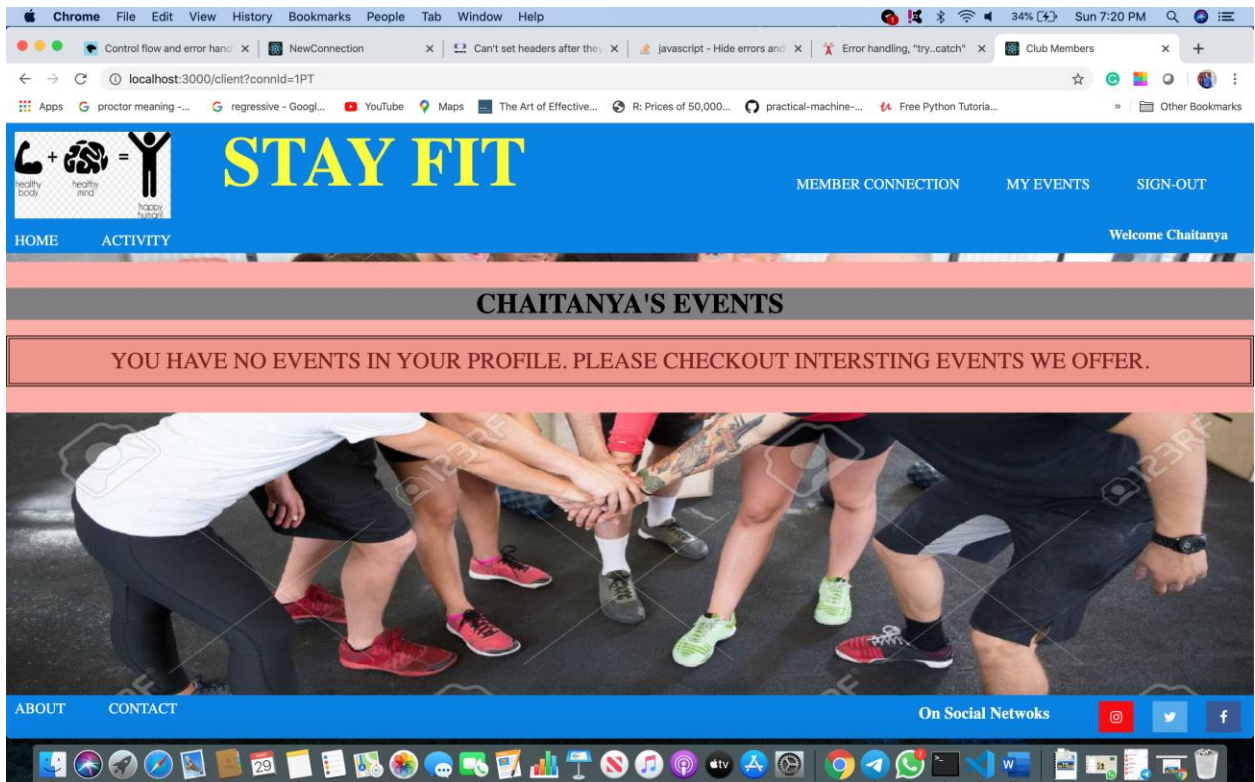

ACTIVITY	CATEGORY	GOING	ACTIONS
GROUP TRAINING	YOGA	NO	UPDATE DELETE
PERSONAL TRAINING	CONSULTATION AND ASSESSMENT	YES	UPDATE DELETE

Below the table is a banner image showing the lower legs and feet of several people standing on a dark surface. At the bottom of the page, there are links for 'ABOUT' and 'CONTACT', and a section for 'On Social Networks' with icons for Instagram, Twitter, and Facebook. The browser's address bar shows 'localhost:3000/client?connId=1PT&rsvp=Yes'.

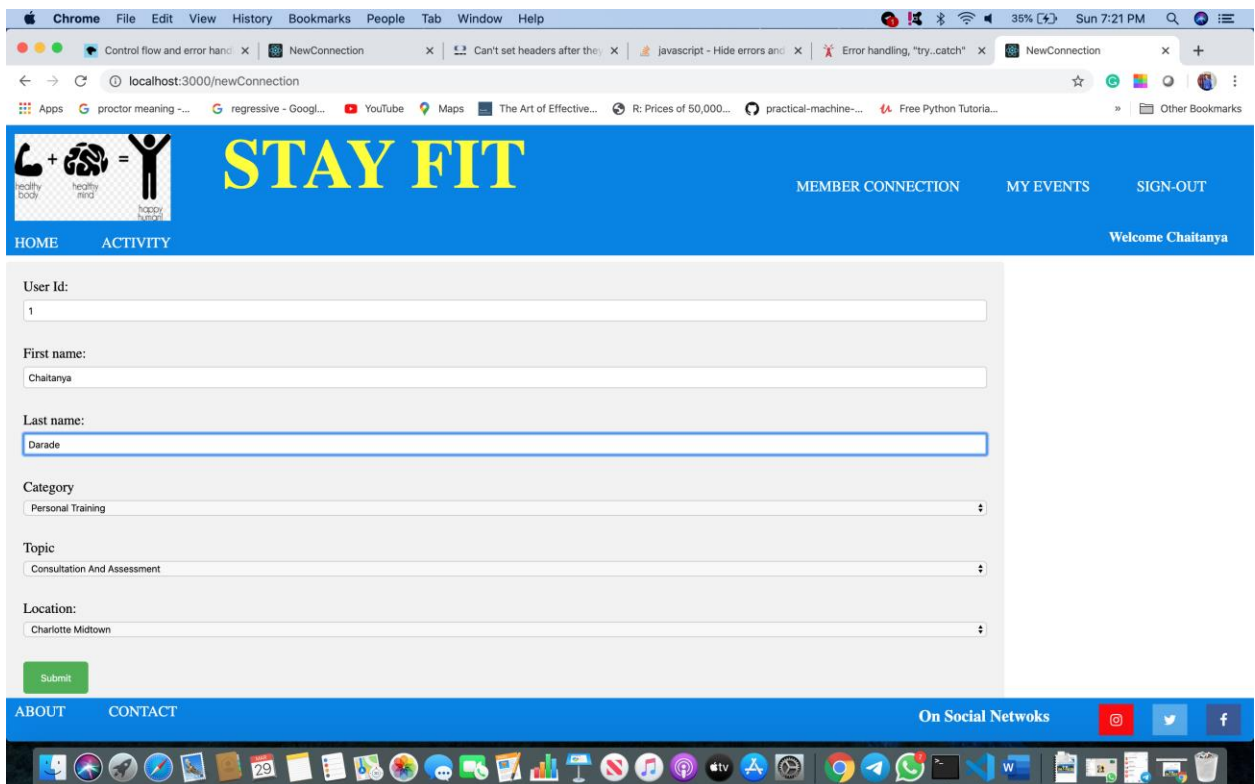

- Updated Events Page (Deleted Connection – Yoga)

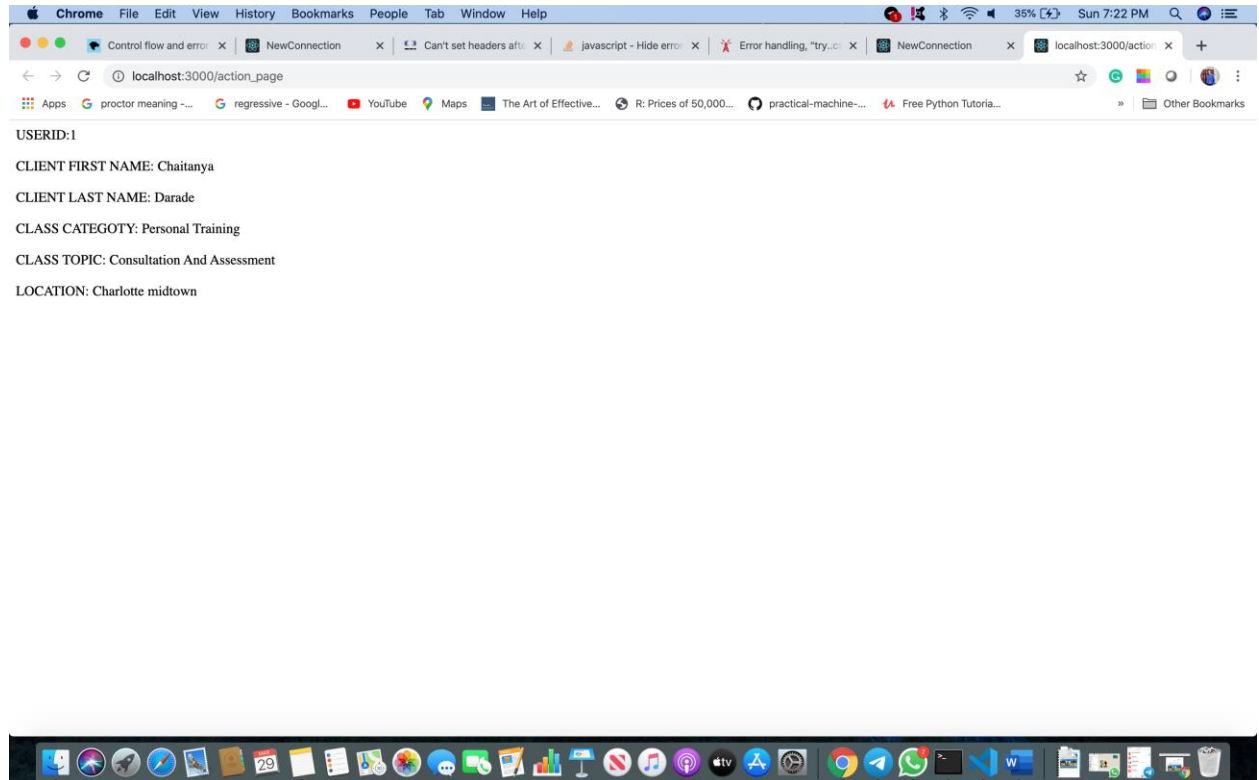

- Updated Events Page (Deleted All Connections)

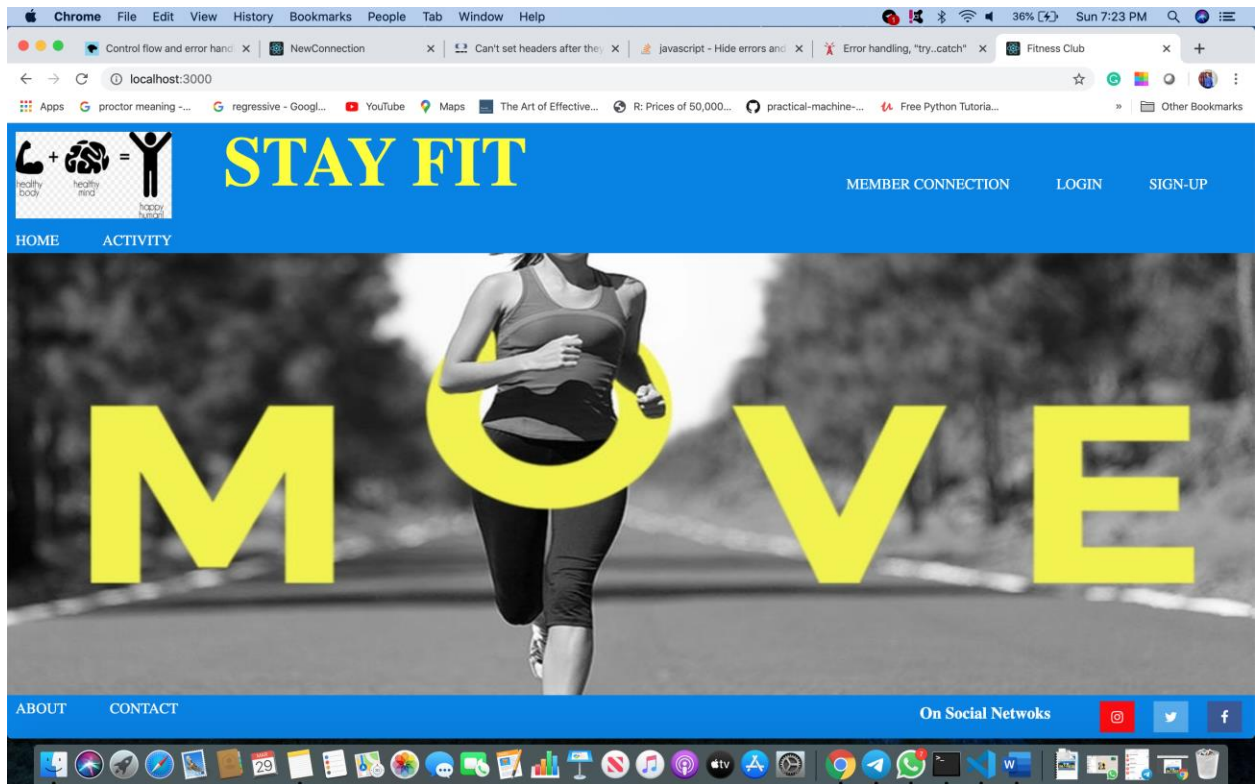

- **Member Connection and Sign-Up page**

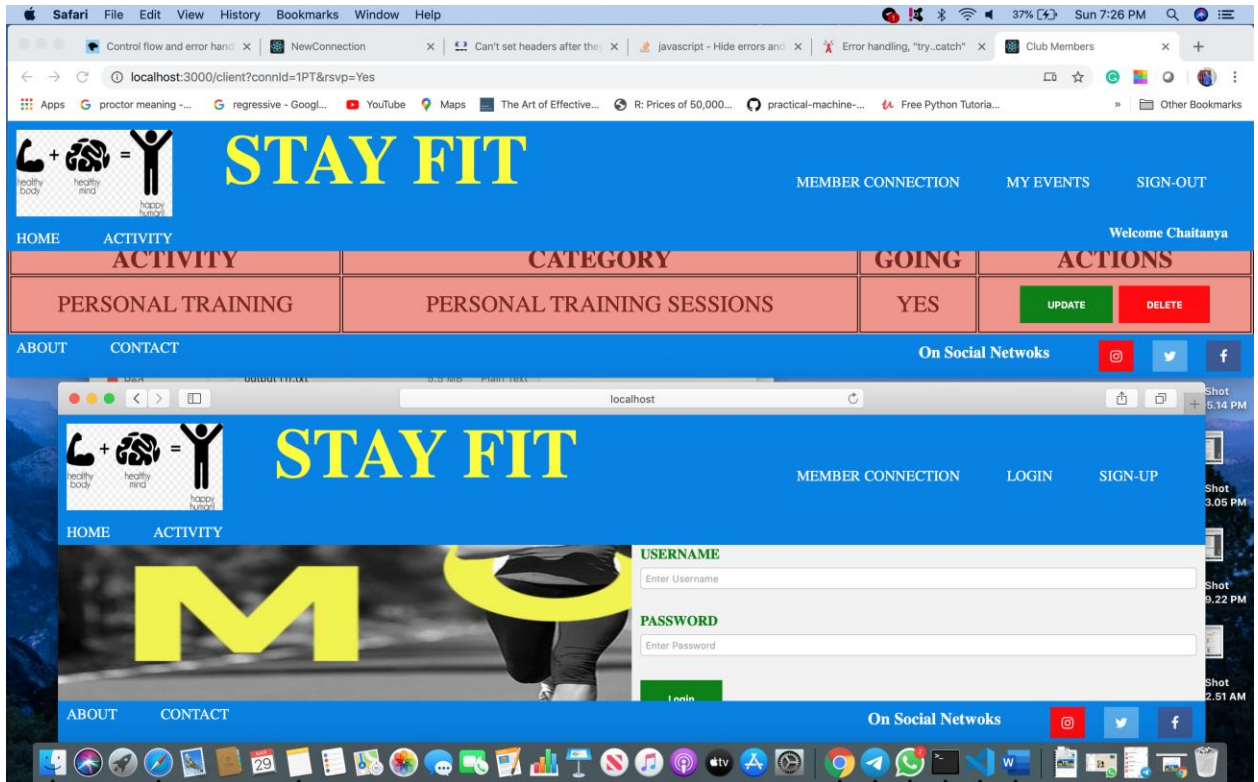

- **Member Connection and Sign-Up Response page**

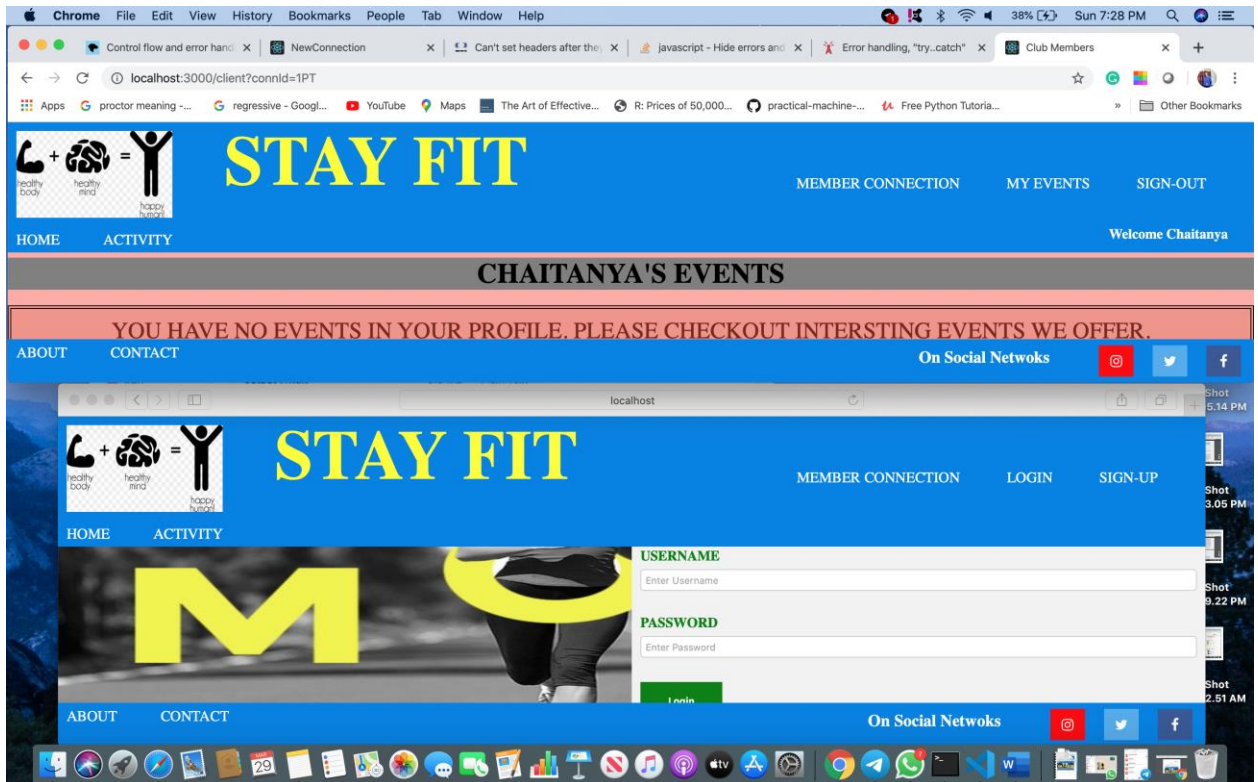

- **Profile Page (After SIGN-OUT)**

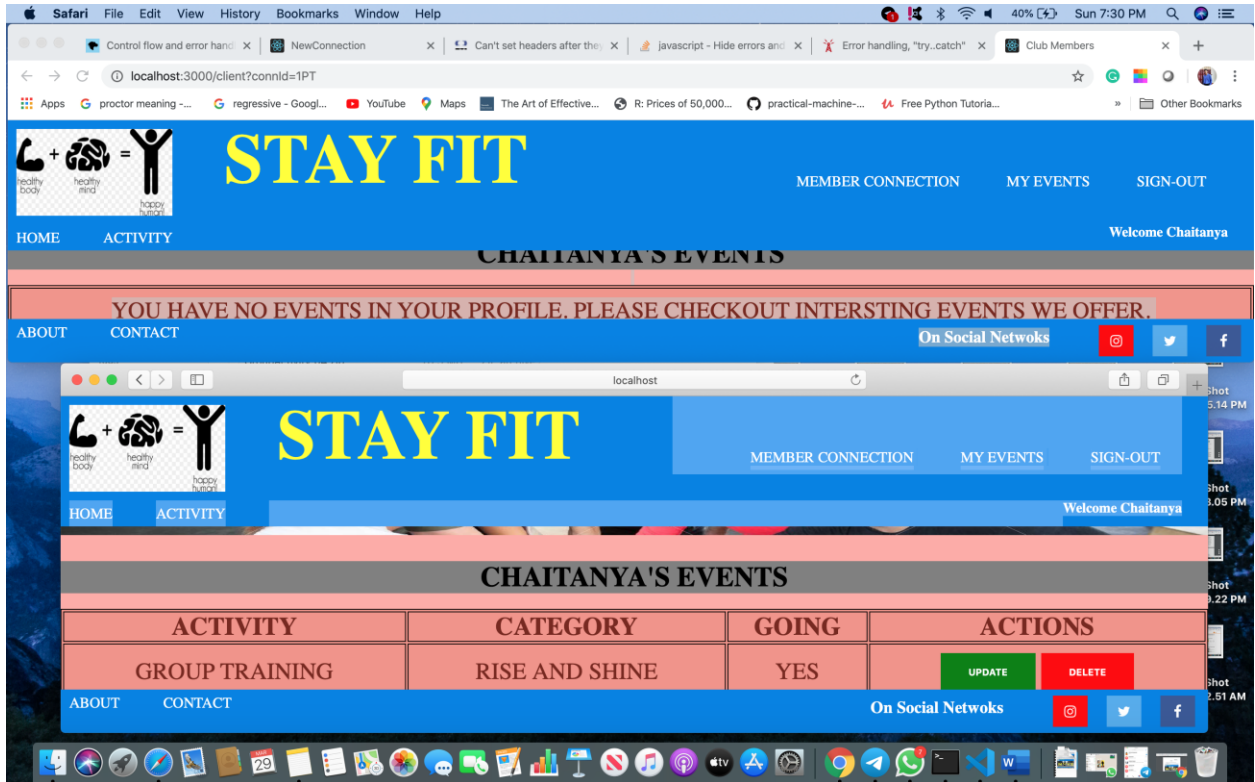

- **Cross Browser Functionality**
 1. Connection added on chrome and login page on safari

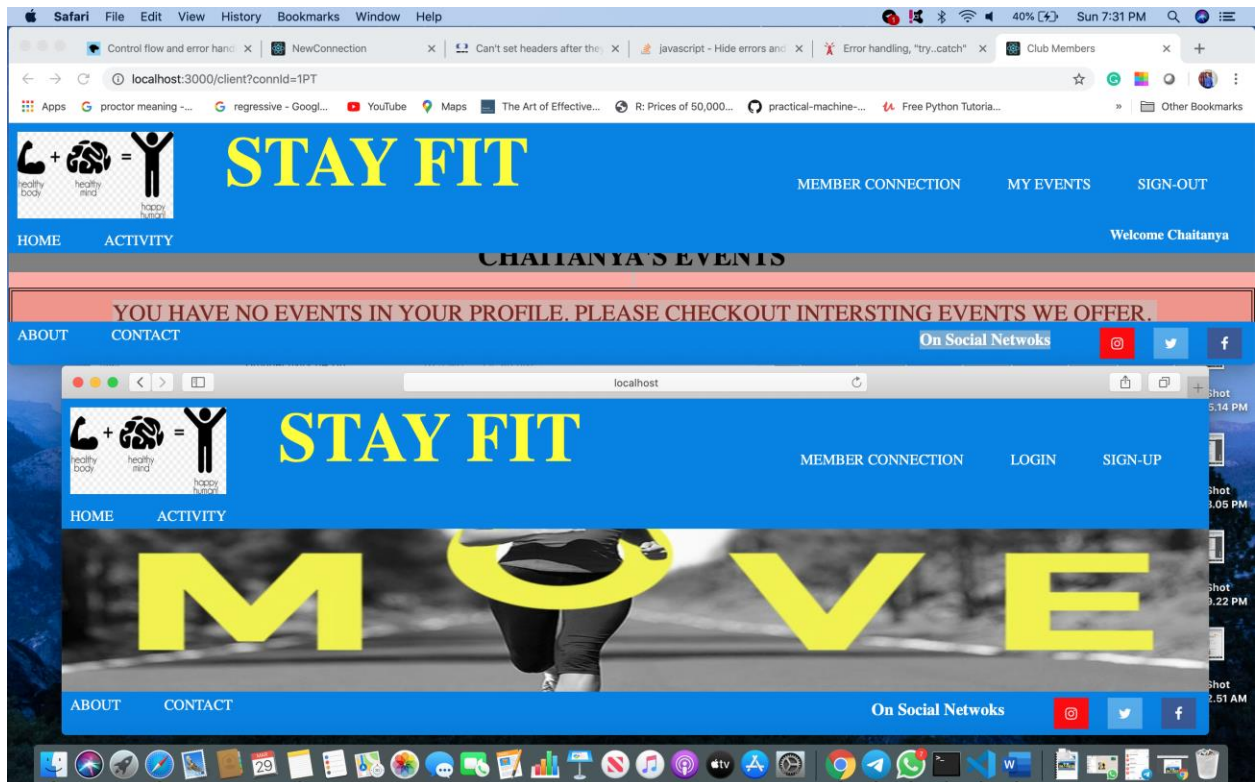

2. Connection deleted on chrome

3. Connection Added on Safari

4. Session Out (Logout) on Safari

B. Discuss the easy and challenging parts of the milestone. How did you overcome all or some of the challenges?

Answer:

Challenging part was handling button click events (Yes, No, Update, Delete) within the same session.

I had two solutions to handle all these buttons. First was to send object directly and second was to send parameters inside URL. I went with the second approach, where, I sent connection id and rsvp and handled routes accordingly.
